

Email Configuration Guide for Android (updated Jan/2015)

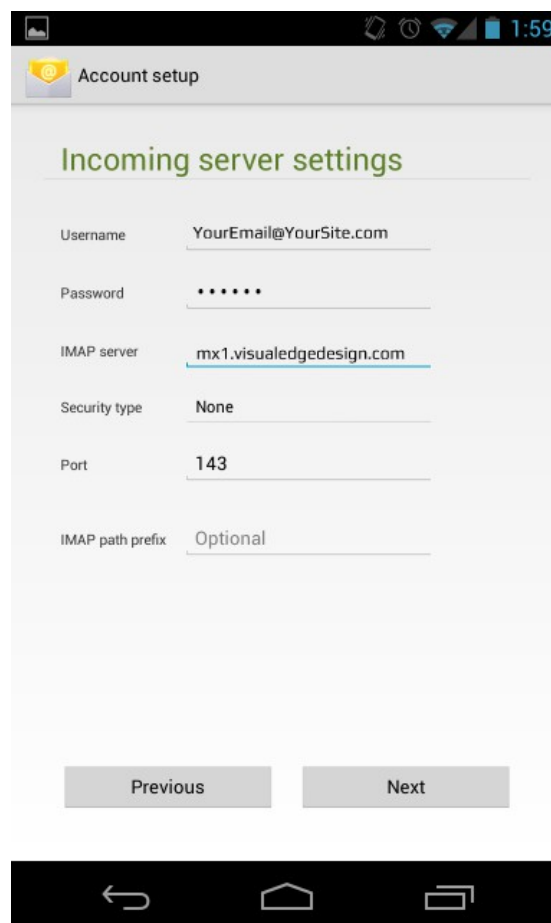

1. Open your email client on your Android phone
2. Enter **YOUR email address** and **YOUR password**:

A screenshot of an Android phone's email account setup screen. At the top, the status bar shows icons for signal strength, Wi-Fi, and battery, along with the time 2:08. Below the status bar is a header with a yellow shield icon and the text "Account setup". The main content area has the heading "Email account" in green. Below this, a message reads: "You can set up email for most accounts in just a few steps." There are two input fields: "Email address" with the placeholder text "YourEmail@YourSite.com" and "Password" with five dots. At the bottom, there are two buttons: "Manual setup" and "Next". The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

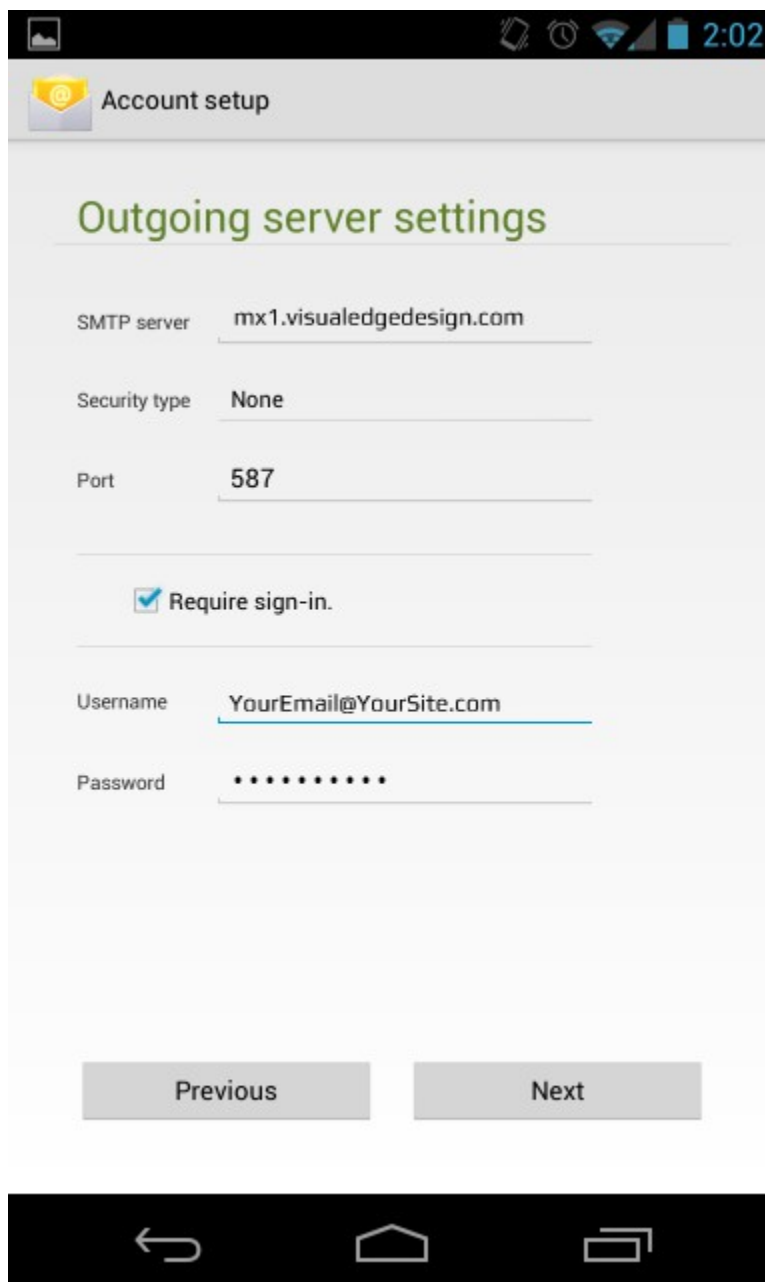

3. For the Account type, choose **IMAP**

4. For the incoming settings use **YOUR email** and **YOUR password** and for server use **mx1.visualedgedesign.com**

5. For the outgoing settings use **mx1.visualedgedesign.com** as the server and **YOUR email** and **YOUR password**

The screenshot shows an Android application interface for account setup. At the top, there is a status bar with icons for signal, Wi-Fi, battery, and the time 2:02. Below the status bar is a header with a yellow shield icon and the text "Account setup". The main heading is "Outgoing server settings" in green. The form contains the following fields:

- SMTP server: mx1.visualedgedesign.com
- Security type: None
- Port: 587
- Require sign-in.
- Username: YourEmail@YourSite.com
- Password: A field with ten dots representing a masked password.

At the bottom of the form are two buttons: "Previous" and "Next". Below the form is a black navigation bar with three white icons: a back arrow, a home house icon, and a recent apps icon.

6. Configure your Account Options as desired on the subsequent screens and you're done!
